ACCREDITED BY MAHARASHTRA MEDICAL COUNCIL

Introduction:

Pediatric Surgical Oncology, in India, is a relatively new concept but is evolving rapidly. A holistic approach in the management of solid tumors, which is important for long term survival, is the aim of this event.

This program is a unique endeavor to get the best expertise within reach. Training shall be imparted by eminent faculty of “International Pediatric Surgical Oncology Society” (IPSO). The popularity of this certificate course, conducted successfully in various countries, encouraged its initiation in Asia’s fastest expanding economy – India.

All Pediatric Surgeons, Pediatric Oncologists, Oncologists, Onco-surgeons are urged to participate & update their skills. Enrollment, for this three day activity, in India’s finance & glamour hub, Mumbai, is nominal.

The venue is S. L. Raheja (A Fortis Associate) Hospital which is a 240 bedded, multi-specialty facility that provides comprehensive & affordable care to patients suffering from various ailments.

Known widely as a leading hospital for advanced management in Diabetes & Oncology, the hospital is poised to develop as a centre of excellence in Diabetes, Oncology, Trauma, Cardiac Sciences, Emergency Services and Critical Care under the professional management of Fortis Healthcare.

Welcome to the dream city Mumbai.
