UNION EUROPEENNE DES MEDECINS SPECIALISTES**

SECTION OF PAEDIATRIC SURGERY

TRAINEE'S LOG-BOOK

1. This log book is intended to provide a record of your operative experience during your period of specialist Paediatric Surgical training.
2. Opposite each procedure you should use the following codes to demonstrate who performed the operation and with what type of supervision.
 - (P) you performed the operation alone
 - (S) you performed the operation with Consultant/Senior Registrar assistance
 - (A) you assisted the Consultant
 - (T) you taught a trainee Surgeon how to do the operation acting as assistant
3. The type of operation performed according to the list of operations
4. Audit, follow up of cases - No = 0, Yes = 1
5. Each page of the record should be signed, when completed, by your Consultant Supervisor
6. A record of meetings attended each year, date, name of meeting, degree of participation, i.e. present a paper, poster, etc.
7. A record of presentations & publications with details

SATISFACTORY COMPLETION OF THIS LOG BOOK CONSTITUTES AN
ESSENTIAL PART OF THE ACCREDITATION PROCESS

Operative Surgery Codes - Contents of the programme

(no. Of cases / years in training)

type	A. NEONATAL SURGERY						
		1	2	3	4	5	total
A.1	oesophageal atresia						
A.2	duodenal atresia						
A.3	malrotation/volvulus						
A.4	meconium peritonitis						
A.5	necrotizing enterocolitis						
A.6	intestinal atresia						
A.7	Hirschsprung's disease						
A.8	anorectal malformations						
A.9	gastrostomy, ileostomy, colostomy						
A.10	inguinal hernia						
A.11	central venous lines						
A.12	hydrocephalus						
A.13	spina bifida						
A.14	thoracotomy						
A.15	congenital diaphragmatic hernia						
A.16	lobectomy, pneumonectomy						
A.17	exomphalos						
A.18	gastroschisis						
A.19	exstrophy						
A.20	nephrectomy						
A.21	partial nephrectomy						
A.22	nephrostomy						
A.23	torsion of testis						
A.24	orchidectomy						
A.25	posterior urethral valves						
A.26	others						
	B. EMERGENCY SURGERY						

		1	2	3	4	5	total
B.1	tracheostomy						
B.2	soft tissue trauma						
B.3	insertion of drains						
B.4	burns						
B.5	skin grafting						
B.6	thoracic emergency surgery						
B.7	abdominal emergency surgery						
B.8	renal,genitourinary emergency surgery						
B.9	insertion-revision of shunts (VA,VP)						
B.10	drainage of abscesses						
B.11	appendectomy						
B.12	peritonitis						
B.13	intussusception						
B.14	intestinal obstruction						
B.15	intestinal resection						
B.16	ileostomy, colostomy						
B.17	laparoscopy						
B.18	others						
	C. GENERAL PEDIATRIC SURGERY						
		1	2	3	4	5	total
	1. day case surgery						
C.1.1	inguinal hernia						
C.1.2	umbilical hernia						
C.1.3	epigastric hernia						
C.1.4	hydrocele						
C.1.5	undescended testis						
C.1.6	circumcision						
C.1.7	biopsy						
C.1.8	hypospadias (minor)						
C.1.9	I.G. nail						
C.1.10	ganglion, bursa						
C.1.11	others						

	2. Gastrointestinal surgery						
		1	2	3	4	5	total
C.2.1	endoscopy						
C.2.2	fundoplication						
C.2.3	gastrostomy, ileostomy, colostomy						
C.2.4	pyloric stenosis						
C.2.5	biliary atresia						
C.2.6	cholecystectomy						
C.2.7	splenectomy						
C.2.8	Hirschsprung' s disease						
C.2.9	others						
	3. head and neck surgery						
C.3.1	central venous line						
C.3.2	dermoid cyst						
C.3.3	branchial remnants						
C.3.4	torticollis						
C.3.5	thyroglossal cyst						
C.3.6	thyroid						
C.3.7	cystic hygroma						
C.3.8	nodes						
C.3.9	parotid - salivary glands						
C.3.10	others						
	4. Urology						
C.4.1	circumcision						
C.4.2	orchidopexy						
C.4.3	hypospadias repair						
C.4.4	cystoscopy						
C.4.5	nephrectomy						
C.4.6	partial nephrectomy						
C.4.7	posterior urethral valves						
C.4.8	pyeloplasty						
C.4.9	anti-reflux procedures						

		1	2	3	4	5	total
C.4.10	bladder augmentation						
C.4.11	lithiasis						
C.4.12	urinary diversion						
C.4.13	urinary un-diversion						
C.4.14	others						
	5. Thoracic surgery						
C.5.1	bronchoscopy						
C.5.2	oesophageal atresia						
C.5.3	oesophagoscopy						
C.5.4	oesophageal resection						
C.5.5	oesophageal replacement						
C.5.6	pleural drainage						
C.5.7	pulmonary resection						
C.5.8	thoracotomy for duplication cyst						
C.5.9	thoracotomy for tumour						
C.5.10	others						
	6. Tumour Surgery						
	benign						
C.6.1	teratoma						
C.6.2	ovarian cyst						
C.6.3	lymphangioma						
C.6.4	haemangioma						
C.6.5	fibromatosis						
C.6.6	ganglioneuroma						
C.6.7	congenital mesoblastic nephroma						
	malignant						
C.6.8	Wilms' tumour, nephroblastoma						
C.6.9	neuroblastoma						
C.6.10	rhabdomyosarcoma						
C.6.11	teratoma						
C.6.12	others
